## COMPLETE TOPS

RT Off-Road's Complete Soft Tops are complete top packages that include everything needed to install them. Kits include: Soft Top, Windows (where applicable), Bow Assembly, and all hardware. Each top also includes soft top disconnects, a soft top storage bag, and storage pockets built into the top itself. The improved frame design and bow assembly increase ease of use and is able to fold down when not in use.

TJ	97/06	Yes	Black Diamond	RT10435T

### SAILCLOTH REPLACEMENT TOPS

RT Off-Road's upgraded Sailcloth Replacement Soft Tops are a direct fit replacement for the factory cloth and windows. The upgraded sailcloth material reduces buffering and noises typical with soft top vehicles. These replacement soft tops are only available with tinted windows. Factory hardware must be reused.

Model	Year	Color	Part #
TJ	97/06	Black Diamond	RTS20035T
TJ	97/06	Spice	RTS20037T

### BOWLESS SOFT TOPS

RT Off-Road's Bowless Soft Top installs directly over the factory roll bar. It requires no additional supports and still maintains a snug fit. This design allows for larger side windows to improve visibility. When the side and rear windows are removed the top converts into an open air safari top. Each top includes tinted windows and storage pockets.

Model	Year	Color	Part #
JK 2DR	07/15	Black Diamond	BRT20035T

## COVER ALL KITS

RT Off-Road's Cover All Kits are a unique way to outfit your vehicle with a weather resistant top system. While not completely weather tight, these Cover All Kits provide protection for vehicles without any top. Each Kit includes a beach topper, a wind breaker, and a tonneau cover. Tire cover and roll bar cover are not included.

## WINDBREAKERS

RT Off Road's Windbreakers deflect the air behind the driver and passenger seats, creating an easier environment for conversation and listening to music. They mount behind the front seats to the factory roll bar and extend to the floor, reducing wind, moisture, and dust from entering the passenger compartment.

## TAILGATE BAR & TONNEAU COVER KIT

Replace your broken or missing tailgate bar and add a cargo cover for when the top is off the Jeep®. This is a dual function product that can either be used with a soft top or by itself as a tonneau/cargo cover. The bar assembly slides onto a channel for both your top and the cargo cover. The channel allows you to quickly change from a top to the cargo cover. The cargo cover keeps your valuables that you store behind your seat out of sight. The tailgate bar assembly installs in minutes into the factory location.

- Tailgate bar and retainers work with factory and most aftermarket tops.
- Black denim cargo cover encloses space between rear seat and tailgate.
- Includes instructions.
- Includes tailgate bar, retainer mounts, cargo cover, and all necessary hardware.
- Cargo cover can be removed and tailgate bar can be used with standard soft top.

Model	Year	Color	Part #
TJ	97/06	Black Denim	TN27015
YJ	87/95	Black Denim	TN27015

## TONNEAU COVERS

Keep gear clean, dry, and away from prying eyes with RT Off-Road's Tonneau Cover. Installs into factory belt rails and extends from the tailgate to the back of the front seats.

## FREEDOM TOP PANEL STORAGE BAG

The Freedom Top Panel Storage Bag is a dual compartment storage system. The outside is constructed out of a durable canvas material while the inside is lined with a soft cloth to protect the panels. Designed to fit behind the rear seat.

Model	Year	Color	Part #
JK	07/15	Black	SB40001

## WINDOW STORAGE BAG

Finally a safe and convenient way to store a set of windows and upper doors. One of the most difficult things about taking the top off a Jeep is finding a place to safely store the windows and upper doors. We have solved this problem with our canvas storage bag. Now your windows and doors can be stowed safely and conveniently behind the rear seat. The internal felt separators will ensure their safety while removed from the vehicle. Storage bag works on most Jeep vehicles with a soft top and upper soft doors.

- Heavy duty black canvas material
- Protects windows and upper doors from scratches
- Stores easily behind rear seat
- Felt liners keep windows from rubbing against one another.
- Convenient handle for transporting windows and upper doors

Model	Year	Color	Part #
TJ, YJ, CJ	76/06	Black	SB40002

## TIRE COVERS

Protect your spare tire from the elements with a RT Off-Road tire cover. The elastic slip on design allows for easy installation while still maintaining a tight fit. The canvas material protects expensive tire and wheel combinations from corrosive road chemicals, salts, and UV light.

Tire Size	Color	Part #
27" to 29"	Black	TC272901

JK	07/14	Left	68041621AA

**SEAT COVERS SETS FOR YJ, TJ WRANGLERS™**

These easy to install seat covers are made from durable poly canvas.

The front seat sets include 2 front seat covers, 2 shoulder harness belt pads and a steering wheel cover. The seat covers have adjustable side lace-up draw cords that create a snug fit. Front and side mounted zippered mesh pockets add convenient storage space. Large rear pockets add additional rear access storage space. Included rear carabiner clip is handy for hanging and securing small items. The steering wheel cover installs in seconds without glue or tape. The rubberized interior of the steering wheel cover allows for exceptional grip.

The rear seat sets include one bench seat cover and two shoulder harness belt pads. There is a large storage pocket on the back side of the seat cover.

Both front and rear sets are available in 3 color combinations: Black/Gray, Black/Tan and Black/Red.

TJ	97/06	Rear	RT20003
YJ	87/95	Front	RT20001
YJ	87/95	Rear	RT20003

This RT Off-Road rear bumper and tire carrier was engineered for severe use on a trail rig as well as standard operation on a daily driver. The bumper's angled profile increases your departure angle without sacrificing overall strength. With this bumper we also recommend also purchasing RT Off-Road's RT33009 2" receiver and d-ring.

- Durable Textured Black Powder Coat Finish
- 3/16" Plate Steel Construction
- 2" Receiver
- Carrier will hold oversized tire and wheel combinations
- Carrier accepts 5 on 4.5" bolt pattern wheels

### JK Wrangler Bumpers

RT Off-Road's Heavy duty Front Bumper is a steel constructed upgrade over the factory bumper. The plate steel and tubular steel construction is protected with a durable textured black powder coat. Bumper includes winch mount, winch fairlead mounting holes, and additional holes for mounting lights. Includes all hardware needed for installation, installs into factory locations, and does not require any drilling or modification.

Model	Year	Position	Part #
JK	07/15	Front	RT20013

RT Off-Road's Rear Bumper is a heavy duty steel constructed upgrade over the factory bumper. The 3/16" plate steel construction is protected with a durable textured black powder coat finish. This rear bumper includes mounting points for d-rings and a large recess for oversized tire clearance. Includes all hardware needed for installation, installs into factory locations, and does not require any drilling or modification.

Model	Year	Position	Part #
JK	07/15	Rear	RT20014

## ROCKER PANEL GUARDS

RT Off-Road's Heavy Duty Rocker Panel Guard Set is a required upgrade for serious rock crawling off-road enthusiasts. The heavy duty plate steel construction protects the vehicles rocker panels from rocks, trees, and all other obstacles one may encounter on the trail. They are protected with a gloss black powder coated finish that will provide years of protection. Kit includes both driver and passenger side rocker panel guards, all hardware needed to install, and installation instructions.

- 2003–2006 Models require modification to guard or relocation of seat belt mounting bolt
- Drilling required

Model	Year	Part #
TJ	97/06	RT26046

## SKID PLATE

Replace the factory plastic brush guard with a heavy duty plate steel skid plate. Keep the electronic sway bar disconnect and steering components safe from rocks, brush, and any potential contact. Direct bolt in design using existing holes. No drilling required. Installs with basic hand tools.

- Black Powder Coat Finish
- 3/16" Plate Steel Construction
- Drilling not required
- Includes all hardware needed for installation

Model	Year	Part #
JK	07/15	RT20017

## TUBE BUMPERS

RT Off-Road's Double Tube Bumper design is sure to freshen up the look of your vehicle. All tube bumpers are constructed out of 3" diameter tubing and has a durable powder coated finish. These tube bumpers are designed to install in the factory holes and require no additional drilling or modifications.

## ADJUSTABLE CONTROL ARM KITS

Improve your Jeep's performance with a set of RT Offroad's Heavy Duty Control Arm Sets. The flex ends are utilized to improve the articulation and relieve suspension binding while maintaining a smooth, comfortable ride. The adjustability of these control arms will allow the caster and pinion to be tuned to factory specifications. Each kit includes a pair of fully assembled, zinc plated control arms with greasable bolts for both ends of the control arms.

- Zinc Plated
- Adjustable
- Fits Jeeps with 0-6" of lift
- Includes Greasable Hardware
- Sold in Pairs

Model	Year	Location	Position	Part #

\* Master Kit, Includes HD Shocks

RT21046

RT21050

RT21029

## WK and XK

This kit improves ground clearance by lifting the front of the vehicle 2" and the rear 1-3/4" to remove the rake that the vehicle has from the factory. Lifting the vehicle increases ground clearance and allows the use of oversized tires. Each spacer is constructed of MIG welded steel and finished in a rich black powder coat. All necessary hardware is included.

- Lifts & Levels for Improved Stance
- Allows for the use of Oversized Tires
- Includes Front & Rear Spacers and Hardware
- Rich Black Powder Coat Finish

Model	Year	Comments	Part #
XK	06/10	2" Lift	RT21038
WK	05/10	2" Lift	RT21038

## HEAVY DUTY GREASABLE SHACKLE KITS

Improve the performance, durability, and look of your suspension with RT Off-Road's Heavy Duty Shackle Kit. The shackle plates and reinforcement sleeves are finished in a rich black powder coat. Installation is as simple as removing the factory shackle assemblies and installing the supplied shackles.

- Effectively lifts vehicle 3/4"
- Heavy duty plate steel construction
- Includes installation instructions

Model	Year	Location	Description	Part #
YJ	87/95	F or R	For 2 Springs	RT21049
YJ	87/95	F and R	For 4 Springs	RT21023
CJ	53/75	F or R	For 2 Springs	RT21021

RT21021

These Heavy Duty Greasable Shackles are made from 1/4" plate and feature a greasable bushing for a noise-free ride.

Model	Year	Description	Part #
XJ	84/01	1.5" Lift	RT21045
MJ	86/92	0.75" Lift	RT21045

## PERFORMANCE SWAY BAR LINKS

RT Off-Road's upgraded Sway Bar Links are an affordable upgrade that increases performance and handling. Not only will your vehicle perform better with our upgraded polyurethane bushing and boots, but the product will last longer than the factory rubber pieces it replaces. All sway bar links install in place of the factory link.

- Black powder coated body with blue polyurethane boots and bushings
- Polyurethane bushings Provide long lasting performance and handling
- Installs using factory hardware

## DROP PITMAN ARMS

Improve steering performance with RT Off-Road's Drop Pitman Arm. Lifting your Jeep without addressing the steering angles often times results in bump steer and decreased turning radius. Installation of this drop pitman arm will reduce the operating angle of the drag link, resulting in improved steering feel and less wear on steering parts. Each arm is designed to bolt in place of the factory piece with no interference issues.

RT21012

RT21001

RT21036

- Improve Steering Feel
- Reduce Drag Link Angle
- Improve Turning Radius
- Designed to bolt in place of OE arm

RT21030

RT21018

## BUMP STOP SET

RT Off-Road's Extended Bump Stops prevent expensive body damage to lifted Jeep vehicles. They measure 5" long and install in place of the factory foam bump stops. The polyurethane construction results in a longer product life and improved suspension control. They can be shortened to achieve the perfect amount of suspension articulation while still preventing the tires from contacting the body.

- Polyurethane Construction
- 5" Long
- Simple Installation
- Designed for Vehicles w/ Suspension Lift
- Limits Suspension Travel to Help Clear Oversized Off-Road Tires

TJ	97/06	Front	RT21027
ZJ	93/98	Front	RT21027

## HEAVY DUTY ADJUSTABLE FRONT TRACK BAR

RT Off-Road's adjustable track bar is a heavy-duty, adjustable upgrade over your factory bar. The adjustable assembly allows you to dial in your suspension's alignment to guarantee that the axle is centered under the front of the vehicle. The 1.25" DOM Tubing has a heavy wall thickness that will withstand years of abuse on the trails.

- For vehicles with 0-5" of lift
- 1.25" DOM tubing
- Requires no drop brackets, drilling, or modification. Installs in factory location.
- Black powder coated finish.
- Will not work on Right Hand Drive vehicles

Model	Year	Comment	Part #

HEAVY DUTY STEERING SHAFTS

RT Off-Road's Steering upgrades are an affordable way to regain and improve the vehicle's on road performance. All of our upgraded steering components are engineered to improve upon the factory design to increase responsiveness and handling. We then go a step further and improve the durability and rigidity by increasing material thickness and component construction methods. Even with these upgrades your RT Off-Road product will still install into the factory locations with simple hand tools.

## HEAVY DUTY BALL JOINT SETS

The “Heavy Duty” description is more than accurate with these ball joints. The newly designed joint is leaps ahead of the OE plastic bushings plagued with premature failure. These HD Ball Joints were manufactured with a sintered metallic bushings. This new bushing is highly resistant to wear and damage. The assembly is greaseable to extend the life of the already durable bushings specifically engineered for vehicles with larger tires, lift kits, and heavier accessories. They install without any fabrication or modification to the factory mounts using tools that can be purchased or rented at a local parts store. The HD Ball Joints are also backed with an industry leading 12 month warranty. Each set includes one upper and one lower Ball Joint with all required hardware needed for installation.

Set includes 1 Upper and 1 Lower Ball Joint with Hardware.

**HEAVY DUTY CONTROL BRACKET ARM SET**

RT Off-Road's Lower Control Arm Bracket Set is a heavy-duty replacement for the failure prone factory mounts. The 3/16" plated steel construction will ensure long lasting performance even with the most rigorous off-road use. The slotted cam bolt design will allow you to dial in the front caster and improve overall ride quality. Cam bolt kits are available separately, replaces part #6504238K. Installation will require cutting, grinding, and welding.

- Brackets are shipped in bare steel
- Welding Required
- Sold in pairs
- Replacement Cam bolt available separately

## SECURE DISCONNECT LOCK KITS

A major problem in late 80's and early 90's Jeep Vehicles were the vacuum disconnect front axles. The RT Off-Road Secure Disconnect Lock System removes and replaces that failure prone vacuum disconnect. The factory disconnect assembly is replaced with a reliable cable actuated system. The stainless steel cable is zinc coated to protect the already durable finish. Our aluminum housing replaces the factory vacuum assembly and installs directly in place with a new gasket. Our wiring kit will ensure the factory 4WD light continues to operate as it did originally. Finally, our dash bracket and hardware kit will make installation a snap.

With Disconnect Front Axle; with 0–3" Lift

**HD DIFFERENTIAL COVERS**

Protect high-dollar differentials with a Heavy Duty Differential Cover from RT Off-Road. These covers are constructed of 3/8" high grade forged steel with a raised fill plug for extra oil capacity. They feature strengthening ribs to ensure a broken or peeled differential cover doesn't cut the day short. The mating surface is machined flat to ensure a leak-free fitment. All covers are finished in a red powder coat and include flanged hex bolts as well as RTV.

- Constructed of 3/8" Forged Steel
- Mating surface machined flat to prevent leaks
- Raised fill plug for increased oil capacity
- Powder Coated Red
- Includes hardware and RTV

## PERFORMANCE AXLE SETS

RT Off-Road continues our tradition of high- quality, heavy-duty, products with Performance Axle Kits. These axles are a direct replacement for the factory shaft but are upgraded to a 4340 alloy steel. This alloy is heat treated to improve both tensile and torsional strength by 30%. The shaft splines are rolled, not cut, into the shaft to further increase overall component strength. Sold in pairs and includes hardware.

## STAINLESS STEEL BRAKE LINE KITS

RT Off-Road Stainless Steel Brake Lines are designed for modified vehicles requiring additional length and performance. The additional length and stainless construction provides long lasting performance on modified vehicles. All brake lines are D.O.T. approved, 50 state legal. Each kit includes stainless lines to replace the factory soft lines, mounting brackets, junctions blocks (if required), copper washers, and mounting hardware.

- Braided Stainless Steel Construction
- Fits Models with 0-4" of lift
- D.O.T. Approved

## HIGH PERFORMANCE BRAKE ROTORS

High Performance Brake Rotors from RT Off-Road are designed for the most extreme abuse. These Brake Rotors were tested on: the steep descents in Moab, Utah; stop and go traffic in Boston, Massachusetts; and the long range treks in-between. Each brake rotor is machine slotted and cross drilled to provide maximum cooling. This drastic cooling helps eliminate brake fade and potential warping. The design rapidly expels friction gases, debris, and water from the rotor and pad surface. You can expect greater braking response, increased performance, longer life, and a sporty new look.

## DRUM TO DISC BRAKE CONVERSION KITS

The RT Off-Road disc brake conversion kits will convert factory Dana 35 or Chrysler 8.25" rear axles from drum to disc brake. This is a must for vehicles with oversized tires and increased accessory weight. These kits are designed for vehicles without ABS and include all hardware, emergency brake cables, and brake hoses needed for installation.

- Dana 35 for Chrysler 8.25" axles only
- Will not work on vehicles equipped with ABS
- Converts Rear Drum Brakes To Disc Brakes
- Incl: Rotors, Pads, Calipers, Backing Plates, Shoes, Brake Hoses, & Hardware

## HEAVY DUTY DUAL DIAPHRAGM BRAKE BOOSTER & HIGH PRESSURE MASTER CYLINDER KITS

Replace rusty, leaky, and faulty Brake Boosters & Master Cylinders with a HD kit from RT Off-Road. Two performance level kits were designed to specifically cater to the vehicles requirements. The larger bore Master Cylinders are designed for upgrades done to axles with larger brake calipers. The more moderate bore is designed for vehicles with factory brakes, disc brake upgrades, and vehicles that require more braking power. Each kit consists of a zinc-coated Brake Booster, Master Cylinder, bench bleeding kit, and installation instructions. Installation involves replacing the factory brake booster & master cylinder.

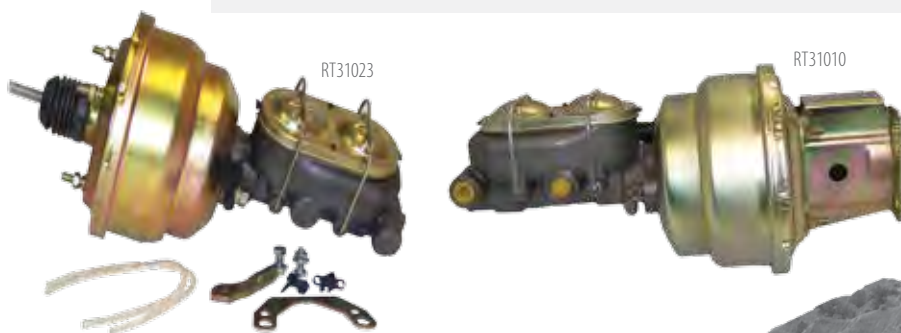

- Work on all available models
- Includes mounting bracket and adjustable push rod assembly
- Includes installation instructions

## HIGH POWER LED ACCESSORIES

### LED Block Lamps

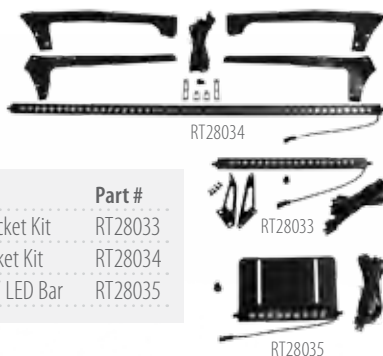

- Fully potted to withstand the rigors of outdoor use
- Universal design — Easy to mount anywhere
- 5,000K Color Temperature

Application	Description	Part #
Universal	Single 4" Lamp with Wiring Harnesses	RT28030
Universal	Dual Light Wiring Harness for Mounted Lights	RT28031
07/15 JK	4" Lamps with Wiring Harness & Windshield Light Mount Brackets	RT28032
97/06 TJ	4" Lamps with Wiring Harness & Windshield Light Mount Brackets	RT28073
87/95 YJ	4" Lamps with Wiring Harness & Windshield Light Mount Brackets	RT28074

### LED Light Bars

- 15° focus lenses
- 5,000K Color Temperature
- High quality NICHIA LEDs to accomplish high LUMEN output with 5 watts per LED

Application	Description	Part #
07/15 JK	20" Bar with #2285 Hood Bracket Kit	RT28033
07/15 JK	50" Bar with #2180 Roof Bracket Kit	RT28034
Universal	License Plate Bracket with 10" LED Bar	RT28035

### LED Fog Lamp Assemblies - PAIR

- Fully compatible OEM harness for plug and play
- Utilizes existing fog lamp housing for an OEM installation; Adjustable design
- Black coated stainless steel hardware and fasteners included
- CNC 6061 aluminum housing

Application	Comment	Part #
07/15 JK w/ OE Bumper	With H16 Harness	RT28036
11/15 JK w/ Steel Bumper	With H16 Harness	RT28037
07/15 JK	With H10 Harness	RT28038

### LED Grilles

- Cut-to-Fit design to give a Jeep® a true makeover
- With 20" LED Light Bar

Application	Construction	Part #
07/15 JK	CNC Billet Aluminum	RT28040
07/15 JK	Black Powdercoated Stainless Steel	RT28041

### LED Headlamps - PAIR

- 7" Headlights
- Each pair outputs 12,000LM
- 5,000K color temperature
- CNC 1" 6061 aluminum

Application	Part #
07/15 JK	RT28039

### LED Dome Lights

Application	Part #

## WHEEL SPACER KITS

Achieve an aggressive look and improved stability with RT Off-Road's Wheel Spacer and Wheel Spacer Adapter kits. These Wheel Spacers and Adapters are an affordable option for additional backspacing or conversion to a more popular bolt pattern. All of RT Off-Road's Wheel Spacers and Adapters are constructed of 1.5" thick 6061 T6 Aluminum. Each set has a hub-centric and wheel-centric design to ensure proper fitment on applications. All Spacers and Adapters are anodized blue to ensure a long lasting finish. RT Off-Road Spacer and Adapter sets are sold complete with 10 Lug Nuts, grade 8 Studs, and thread locking compound.

Model	Year	Comments	Part #

## WHEEL ADAPTERS

RT Off-Road's Wheel Adapter Kits are a perfect solution for anyone wanting to expand their wheel choice. They allow the use of any 5 on 5" wheel to be installed on any vehicle with a 5 on 4.5" bolt pattern (example JK wheels on a TJ). They start as a 1.5" thick piece 6061 T6 aluminum. They are then machined and anodized blue for corrosion resistance. From there, Grade 8 studs are pressed into the Adapters. Each set includes 2 Spacers, 10 Lug Nuts, and thread locking compound.

### Blue Water Can

RT Off-Road's Blue Water Can is constructed of powder coated steel with a food-grade liner to prevent contamination of the liquid inside. The top features an o-ring and a lock pin to prevent leakage even in the most intense, off-camber situations.

- Powder Coated Blue
- Food-Grade Liner
- O-Ring Cap w/ Locking Pin
- Will work with traditional Jerry can mounts

Description	Part #
Blue Water Can	RT26020

## TRAIL CAN UTILITY TOOL BOX

RT Off-Road's Tool Storage can is a great way to uniquely store a vehicle's gear. This Storage Can has the same finish and dimensions as a standard 5 gallon Jerry can (18x13x6.5"). The Storage Can contains two removable drawers and one lift out tray. These trays and drawers are kept safe under the built in lock and key. The all steel construction is kept safe with a durable red powder coated finish.

## CLINOMETERS

RT Off-Road's new clinometers are an awesome way of ensuring that passengers are safer while off-road. They include a roll gauge which will tell how off-camber the vehicle is at all times, along with a pitch gauge which will show how steep of an incline or decline is being conquered. These clinometers are easy to install and adjust using the included adhesive backed base. Fits all vehicles.

## VEHICLE RECOVERY KIT

The RT Off-Road Vehicle Recovery kit is the most convenient collection of recovery parts available. This kit contains everything needed to complete a complex winching operation as well as individual items that will aid in more simple situations. All items are stowed away in a heavy duty polyester bag. Be prepared and have the right tools ready for vehicle recovery.

- Includes: Recovery Strap, Tree Saver, Snatch Block, Two D-Rings, Winch Line Dampener, Gloves, and a Recovery Bag
- The Recovery Tow Strap is rated for 20,000 lbs. and features leather-wrapped ends.
- The Tree Saver is rated for 30,000 lbs. and is used to guarantee the well-being of trees when recovering with a winch.
- Leather-Palmed Gloves and a winch line dampener are added to ensure the safety of all persons using this kit.
- The Recovery bag is oversized to accommodate for storage of additional accessories.

### Locking

Bolt on security for the engine compartment and under hood accessories with a Locking Hood Catch Kit from RT Off-Road. Included with each kit is a pair of black powder coated 304 stainless steel Hood Catches, a set of pre-installed lock cylinders with keys, and all necessary hardware. Hood flutter, a very common problem with all Jeep JK's, is eliminated by omitting rubber from the construction of the kit. This kit fits in place of the factory hood catches; a no-drill installation.

Model	Years	Color	Part #
JK	07/15	Black	RT26057

Bolt on security for the engine compartment and under hood accessories with RT Off-Road's Hood Lock. Complete system installs easily to the vehicle's security latch. Lock assembly comes complete with two keys.

## STAINLESS STEEL HEADER KIT

Improve exhaust flow with RT Off-Road's new Stainless Steel Header Kit for 4.0L Jeep vehicles. This manifold starts with a pair of 1/2" thick zinc-coated flanges that will provide a perfect seal to the cylinder head and downpipe. The primaries are manufactured of 1-1/2" diameter polished, mandrel-bent 304 stainless steel tubing. They meet at a 6-to-1 polished 304 stainless steel collector, which improves exhaust flow through the entire operating range of the engine. The primaries are fully welded to the flanges and collector, resulting in an extremely strong and leak-free header. The outlet of the collector is made of polished, mandrel-bent 304 stainless steel; this time with a 2-1/2" diameter, which will mate to the stock downpipe with no issues. These features result in increased horsepower, torque, throttle response, and fuel mileage along with years of worry-free operation. Installation is straight forward with no cutting, grinding, or welding needed.
